

75 Best State Genealogy Websites in 2013

11/26/2013 - By Rick Crume
December 2013 *Family Tree Magazine*

Find your ancestors across the country with these 75 superb state-focused genealogy websites.

State historical societies and archives are taking the lead in preserving and providing access to records kept on the state and county levels. Instead of traveling around the country, borrowing microfilms or ordering photocopies of birth, marriage and death records, newspapers, county records and more, you now can access a lot of these materials online—many for free.

In selecting this year's list of 75 best websites for researching records of your ancestor's state, we again looked for sites where you can search for your ancestors' names. In some cases, you can search online indexes and then order copies of the original records for a fee.

Sites increasingly are providing searchers with digital images of original records for free. We commend these state organizations—and a few very ambitious individuals—for making valuable genealogical information easily accessible online.

ALABAMA

[Alabama Department of Archives and History](#)

Click on Search Our Collections to search for a name in Civil War service cards, 1867 voter registrations and WWI soldiers. Online catalogs cover microfilmed newspapers you can borrow through interlibrary loan, as well as local and county records, church records and maps available at the archives.

ALASKA

[Alaska State Archives](#)

Resources for genealogists include indexes to naturalization records (1888-1972) and probate records (1883-1956), plus guidelines for requesting information from the archives.
