

## Newton County's Civil War Burials

by Kyle D. Conrad

As we continue to commemorate the 150th anniversary of the Civil War, we present another database of Newton County Civil War history.

The following compilation was the result of a desire to identify the graves of every Civil War veteran buried in Iroquois and Washington townships for our 2006 Sesquicentennial book. Upon completion of that project, I decided to expand it to be a county-wide research project.

Sources used for this database were many. John Ade had compiled a list of soldiers who fought in the Civil War from Newton County in his 1911 history book. From there I researched local newspapers, veterans lists, cemetery records, discharge records, Civil War databases, US Census records, family histories and biographies, and the Sons of Union Veterans of the Civil War graves registration database, among other resources.

The result is a thorough listing of the graves of all of the known Civil War veterans buried in our county, and a short list of those that are believed to possibly be here but no proof can be obtained. This may be due to their name appearing in one source or another with no other accompanying source found.

This compilation also led to the marking of two unmarked Civil War veteran graves; Confederate veteran James Harrison, buried at Riverside Cemetery at Brook, and Freeland Runnion at the Doran Cemetery in Washington Township. There is a need to continue this project to replace missing or broken military markers in many of our county's cemeteries.

Due to the size of this database, this is the first of two published installments. They are sorted alphabetically according to their burial location.

\*Denotes that information regarding burial site and veteran information is unproven; the burial site is listed without proof, or the source supplied one reference to being a veteran without further confirmation - see specific information at end of list.

Please notify Kyle Conrad, kidclerk@aol.com if you have any additional information or corrections and confirmation material on any Civil War veteran from Newton County. Look for the remaining township burials in the Winter, 2014 *Newcomer*.

\*Mandeville was a vet but unmarked at North Star

\*\*Luther is buried at Murphey but can't be sure if this is the same Luther that was a vet because his stone is not legible.

\*\*\*I don't think Johnson was a veteran but he shows up on one source

\*\*\*\*S. Kelley-not sure of his burial location or if he is the same as Sam Kelley who has military proof.
