Forward

I originally began this project with the sole intent of abstracting information on my Goodland families. Then I decided to make a brief index of all deaths with the hope of helping other researchers with their Goodland families. I hope that it serves that purpose.

This index is dedicated to the memory of my great grandmother Anna Wilhelmina (Leins) Frohreich 1883-1980. She lived a majority of her life in Goodland and is largely responsible for my interest in genealogy.

All deaths are listed alphabetically by the last name of the person who died.

The index at the front of this book is for death's that were mentioned, but not named. For example: "The father of Mary Jones" or "The brother of Mary Jones." In this case, the death would be in the front index under Jones and a description of the relationship and then the date that the death was mentioned. These deaths are also listed in the "book" under "unknown" on pages 81 – 82.

This is just a brief index and is in no way intended to supply the complete information contained in the obituary. Although I tried to catch each and every death notice and obituary, I'm sure that I missed some. I highly recommend checking the newspaper if you can't locate a death that you feel should be included.

If you have the time, I also recommend spending some time with the Goodland paper. There's fascinating stories as well as information on every day occurrences that would be enjoyed by any researcher.

Copies of these obituaries can be obtained by contacting the Indiana State Library Newspaper Section in Indianapolis, Indiana. You can also borrow (interlibrary loan) these newspapers on microfilm from the library, as well.
